DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-23, drawn to a method of production of a homopolymer or copolymer or homo-oligomer or co-oligomer product, classified in class 528, subclass 502C.
- II. Claims 24, drawn to a polymeric or oligomeric product, a product by process, classified in class 528, subclass 422.
- III. Claims 25-27, drawn to a polymeric or oligomeric product, a product by process, classified in class 528, subclass 422.
- IV. Claims 28-31, drawn to a transparent electroconductive coating, a static shielding material and a display device, classified in class 428, subclass 423.1.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the product as claimed can be made by another and materially different process such as one as disclosed in group III.

Art Unit: 1711

Inventions II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are based on different steps of the processes..

Inventions IV and I are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the process for using the product as claimed can be practiced with another materially different product such as electronic device, laminate---.
